3/18/67

Dear Mr. Johnson,

I have already asked you for any documents relating to Guy Bannister and his detective agencies and those related with him and it that you may be able to refer me to. In this connection there should be a document or documents reporting to federal agents what one or more Cubans, possibly including Carlos Quiroga, reported, including the names of those involved in exile Cuban activities and affairs. I am particularly interested in this or anything like it.

Generally, I should like copies of any documents relating to any Cuban activities, in New Orleans, Dallas, Florida and elsewhere, unless their volume is very excessive. In this event, would you please, if and when you may have such documents, phone me reverse. I am also interested in Sergio Arcacha Smith and of the Cuban groups, two with which he was associated in particular, the Cuban Revolutionary Council and the Cuban Revolutionary Front and Jure, in particular, including reports on these people and groups whether or not the result of interviews with their personnel, or them.

Also, Cuban training camps, all aspects, and those related to these camps, directly and indirectly.

Should any of these be classified, may I have a reference to them?

Sincerely yours,

Harold Weisberg
